

Fancywrap product list

Fancywrap (Hybrid styrene)

Type	Thickness (μm)	Length (m)		Features·Applications	
		2000	4000		
HGS	45	○	○	General use (For steam tunnel)	For beverages and food (Including hot beverages and food) *HGSR: Applicable for hot air tunnel
HGSR	35 40			General use (For steam tunnel) ·Reduced smiling ·Shrink like OPS	
HST	35 40			Shrink in low temperatures (For steam tunnel)	For beverages and food (Including hot beverages and food)
HSTN	35 40			High shrink in low temperatures (For steam tunnel)	
HGL	40			General use (For hot air tunnel)	For seasonings, homecare products, cosmetics
HSAR	50			High shrink in super low temperatures (For hot air tunnel)	For cosmetics, homecare products, plastic bottles, etc. Pre-labeled bottles

※All types have anti-static treatment

Fancywrap (Polystyrene)

Type	Thickness (μm)	Length (m)		Features·Applications		
		2000	4000			
GMGS	50 60	○	○	General use, PET beverage bottles	PET beverages	For hot-pack lines
GMZS	40			General use, high stiffness		
GMVS	45 50 60			Shrink in low temperatures For non-heat resistant bottles		For aseptic lines
GMNS	50			High shrink and high stiffness in super low temperatures	For full-labeled	
				For blown bottles (PP, PE)	Pre-labeled bottles for hot air tunnel	Pre-labeled bottles for hot air tunnel

※All types have anti-static treatment

Fancywrap (Polyolefin)

Type	Thickness (μm)	Corona treatment	Length (m)	Features·Applications	
			2000		
FL1	50	One side	○	Cold resistant, chemical resistant, follow-up properties to bottles	For PET beverage bottles, homecare products, cosmetics and dry batteries, etc.
FL2		Both sides			

※All types have anti-static treatment

Fancywrap (PET)

Type	Thickness (μm)	Shrinkage	Length (m)	Features·Applications	
			2000		
TAS	30	0-60	○	General use	For general labels
	40				
TRS	25	20-50		High in thermal cutting	For round shrink wrap bag, aerosol cans
TNB	25	40-40	Anti-fogging	For lids of hot pot noodles	

※All outside surface have anti-static treatment (TNB has anti-fogging treatment)
