

Fancywrap product list

Fancywrap (Hybrid styrene)

Type	Thickness (μm)	Length (m)		Features・Applications	
		2000	4000		
HCX	23	○	○	Environmentally-friendly Film (For steam tunnel) *Containing Recycled Materials	For beverages and food(Including hot beverages and food) *HGSR: Applicable for hot air tunnel
	33				
HGS	45			General use (For steam tunnel)	
HGSR	35			General use (For steam tunnel) ・Reduced smiling ・Shrink like OPS	
	40				
HST	35			Shrink in low temperatures (For steam tunnel)	
	40				
HSTN	35			High shrink in low temperatures (For steam tunnel)	
	40				
HGL	40			General use (For hot air tunnel)	For seasonings, homecare products, cosmetics
HSAR	50			High shrink in super low temperatures (For hot air tunnel)	For cosmetics, homecare products, plastic bottles, etc. Pre-labeled bottles

※All types have anti-static treatment

Fancywrap (Polystyrene)

Type	Thickness (μm)	Length (m)		Features・Applications		
		2000	4000			
GMGS	50	○	○	General use, PET beverage bottles	PET beverages	For hot-pack lines
	60					
GMZS	40			General use, high stiffness		
GMVS	45			Shrink in low temperatures For non-heat resistant bottles		For aseptic lines
	50					
	60					
GMNS	50			High shrink and high stiffness in super low temperatures		
				For blown bottles (PP, PE)	Pre-labeled bottles for hot air tunnel	Pre-labeled bottles for hot air tunnel

※All types have anti-static treatment

Fancywrap (Polyolefin)

Type	Thickness (μm)	Corona treatment	Length (m)	Features・Applications		
			2000			
FL1	50	One side	○	Cold resistant, chemical resistant, follow-up properties to bottles	For PET beverage bottles, homecare products, cosmetics and dry batteries, etc.	
FL2		Both sides				

※All types have anti-static treatment
